

Student Employment Opportunities at Governors Island National Monument

Spend the summer on an island in the middle of New York Harbor!

A unique experience will be yours as a Park Guide with the National Park Service at Governors Island National Monument, a place that has played a pivotal role in the history of New York City.

Students form an integral part of our team-oriented staff.

The Place

For over two centuries, Governors Island stood as a silent sentinel in New York Harbor. From its beginnings as a small military post in 1794, the island became a major headquarters for the U.S. Army and Coast Guard.

The two historic forts, Fort Jay and Castle Williams, along with the military community that evolved around them, provided security for New York City from 1794 to 1996 which allowed the city to develop into the nation's center of commerce and finance. Governors Island chronicles the history of groups of people united behind their commitment to the national community they called home.
